Contents of Volume 11 1980

January

2 Future prospects for geothermal energy: H C H Armstead
8 Energy storage by batteries: P McGeehin
16 Electronic speckle pattern interferometry: O J Løkberg
23 Environmental remote sensing part 2: D T Gjessing
28 Metallic glasses: H Warlimont

Book reviews 33 *Conference reports* 36
Talking point 41

March

46 Energy conservation using combined heat and power: W Marshall
49 The role of technology within the European fusion programme: H Knoepfel
56 The promise of carbon fibres: G Dorey
62 Infrared television: thermal imaging with the pyroelectric vidicon: R Watton
67 Constructional materials for North Sea oil platforms: J V Sharp

Conference reports 74 *Book reviews* 79
Talking point 81

May

87 Physics in radiological protection: B M Wheatley
93 Biological risk involved in power production: E E Pochin
99 Biological effects of radiowaves and microwaves: E H Grant
105 Radio and television broadcasting by satellite: C Rosetti

Editorial: The human price of an industrial society 85
Book reviews 111 *Conference reports* 116
Talking point 120

July

128 Methods of funding national research: M O Robins
134 Applications of amorphous materials: J Mort
142 Photoacoustic and photothermal spectroscopy: S O Kanstad and P-E Nordal

Editorial: Nuclear energy and weapons proliferation 125
Book reviews 148 *Conference reports* 154
Talking point 160

September

169 Electron beam lithography for integrated circuit fabrication: H Ahmed
175 Avoiding eye problems with VDUs: S G Rosenthal and J W Grundy
181 Hydrogen: its place in future energy systems: L O Williams
187 Physics in appropriate technology: P F Logan

Conference reports 193 *Book reviews* 199
Talking point 203

November

211 Solid state electroluminescent displays: D K Wickenden
218 Gas discharge displays: G F Weston
224 Flat television display: R N Jackson and J Smith
232 Liquid crystal materials and devices: M G Clark, K J Harrison and E P Raynes

Editorial: The display scene 209
Book reviews 241 *Conference reports* 244
Talking point 248

physics in technology

Index to Volume 11 1980

Subject index

Articles, reports on conferences (C), editorials and leader articles (E) are referenced cyclically by keywords of title

amorphous materials, Applications of 134
analysis, 4th int. conf. on ion beam (*C*) 36
appropriate technology, Physics in 187

batteries, Energy storage by 8
battery seminar, 2nd ERA (*C*) 38
beams, 2nd int. conf. on low-energy ion (*C*) 157
broadcasting by satellite, Radio and television 105

carbon fibres, The promise of 56
combined heat and power, Energy conservation using 46
Constructional materials for North Sea oil platforms 67

devices, Liquid crystal materials and 232
devices, Vacuum (*C*) 156
dielectric materials, measurements and applications, 3rd int. conf. on (*C*) 39
display scene, The (*E*) 209
display, Flat television 224
displays, Gas discharge 218
displays, Solid state electroluminescent 211

electric vehicles and their infrastructure, EVDG 3rd int. conf. – resources for (*C*) 118
electroluminescent displays, Solid state 211
Electron beam lithography for integrated circuit fabrication 169
Electronic sensors and their applications (*C*) 158
Electronics update '79 (*C*) 77
Electro-optics/Laser international '80 (*C*) 195
electrotechnics, Eurocon '80: From electronics to microelectronics, 4th European conf. on (*C*) 247
energy and weapons proliferation, Nuclear (*E*) 125
Energy Association, 2nd ann. workshop, British Wind (*C*) 196
Energy conservation using combined heat and power 46
energy, Future prospects for geothermal 2
Energy storage by batteries 8

energy systems, Hydrogen: its place in future 181
energy, Wind (C) 117
eye problems with VDUs, Avoiding 175

fibres, The promise of carbon 56
Flat television display 224
fluids, 2nd int. conf. on magnetic (C) 245
funding national research, Methods of 128
fusion programme, The role of technology within the European 49

Gas discharge displays 218
geothermal energy, Future prospects for 2
glasses, Metallic 28

Hydrogen: its place in future energy systems 181

industrial society. The human price of an (E) 85
instrumentation needs of the UK in the early 1980s, Measurement and (C) 154
integrated circuit fabrication, Electron beam lithography for 169
interferometry, Electronic speckle pattern 17
ion beam analysis, 4th int. conf. on (C) 36
ion beams, 2nd int. conf. on low-energy (C) 157

jet cutting technology, 5th int. symp. on (C) 246

Laser international '80/Electro-optics (C) 195
lasers, Industrial applications of (C) 197
Liquid crystal materials and devices 232
lithography for integrated circuit fabrication, Electron beam 169

magnetic fluids, 2nd int. conf. on (C) 245
materials, Applications of amorphous 134
materials for North Sea oil platforms, Constructional 67
Measurement and instrumentation needs of the UK in the early 1980s (C) 154
Metallic glasses 28
Microcircuit engineering '79 – microstructure fabrication (C) 78
Microprocessors in the rubber and plastics industry (C) 75
Microwave optical design (C) 76
microwaves, Biological effects of radiowaves and '99

Nuclear energy and weapons proliferation (E) 125

oil platforms, Constructional materials for North Sea 67
optical design, Microwave (C) 76

Photoacoustic and photothermal spectroscopy 142
Power from sea waves (C) 37
power production, Biological risk involved in 93
publishing, Symposium on the impact of new technologies on (C) 74

Radioactive waste management in perspective (C) 244
Radio and television broadcasting by satellite 105
radiological protection, Physics in 87
radiowaves and microwaves, Biological effects of 99
remote sensing, Environmental 23
research, Methods of funding national 128
risk involved in power production, Biological 93
robots, 5th conf. of industrial robot technology and 4th NC robot automation exhibition, 10th int. symp. on industrial (C) 193
rubber and plastics industry, Microprocessors in the (C) 75

sensors and their applications, Electronic (C) 158
Severn barrage, The 163
society, The human price of an industrial (E) 85
Solid state electroluminescent displays 211
spectroscopy, Photoacoustic and photothermal 142
Submarine telecommunications systems (C) 155

technology, Physics in appropriate 187
technology within the European fusion programme, The role of 49
telecommunications systems, Submarine (C) 155
television broadcasting by satellite, Radio and 105
television display, Flat 224
television: thermal imaging with the pyroelectric vidicon, Infrared 62
thermal imaging with the pyroelectric vidicon, Infrared television: 62
Tribology and physics (C) 116

Vacuum devices (C) 156
vehicles and their infrastructure, EVDG 3rd int. conf. – resources for electric (C) 118
vidicon, Infrared television: thermal imaging with the pyroelectric 62
VDUs, Avoiding eye problems with 175

waves, Power from sea (C) 37
weapons proliferation, Nuclear energy and (E) 125
Wind energy (C) 117
Wind Energy Assoc. 2nd ann. workshop, British (C) 196

Authors (with article title)

(*E*) *denotes editorial or leader article*

Ahmed H: Electron beam lithography for integrated circuit fabrication 169
Armstead H C H: Future prospects for geothermal energy 2

Blair I M: The human price of an industrial society (*E*) 85

Clark M G, Harrison K J and Raynes E P: Liquid crystal materials and devices 232

Dorey G: The promise of carbon fibres 56

Gjessing D T: Environmental remote sensing 23
Grant E H: Biological effects of radiowaves and microwaves 99
Grundy J W and Rosenthal S G: Avoiding eye problems with VDUs 175
Gummett P: Nuclear energy and weapons proliferation (*E*) 125

Harrison K J, Raynes E P and Clark M G: Liquid crystal materials and devices 232
Hilsum C: The display scene (*E*) 209

Jackson R N and Smith J: Flat television display 224

Kanstad S O and Nordal P-E: Photoacoustic and photothermal spectroscopy 142
Knoepfel H: The role of technology within the European fusion programme 49

Logan P F: Physics in appropriate technology 187
Løkberg O J: Electronic speckle pattern interferometry 16

McGeehin P: Energy storage by batteries 8
Marshall W: Energy conservation using combined heat and power 46
Mort J: Applications of amorphous materials 134

Nordal P-E and Kanstad S O: Photoacoustic and photothermal spectroscopy 142

Pochin E E: Biological risk involved in power production 93

Raynes E P, Clark M G and Harrison K J: Liquid crystal materials and devices 232
Robins M O: Methods of funding national research 128
Rosenthal S G and Grundy J W: Avoiding eye problems with VDUs 175
Rosetti C: Radio and television broadcasting by satellite 105

Sharp J V: Constructional materials for North Sea oil platforms 67
Shaw T L: The Severn barrage 163
Smith J and Jackson R N: Flat television display 224

Warlimont H: Metallic glasses 28
Watton R: Infrared television: thermal imaging with the pyroelectric vidicon 62
Weston G F: Gas discharge displays 218
Wheatley B M: Physics in radiological protection 87
Wickenden D K: Solid state electroluminescent displays 211
Williams L O: Hydrogen: its place in future energy systems 181

Conferences reported (by date)

25–29 June 1979	4th int. conf. on ion beam analysis	36
26–28 June 1979	Power from sea waves	37
10–13 September 1979	3rd int. conf. on dielectric materials, measurement and applications	39
25–27 September 1979	Microcircuit engineering '79 – microstructure fabrication	78
28 September 1979	Microwave optical design	76
3–4 October 1979	2nd ERA battery seminar	38
24 October 1979	Microprocessors in the rubber and plastics industry	75
31 October 1979	Electronics update '79	77
6–7 November 1979	Symposium on the impact of new technologies on publishing	74
14 November 1979	Tribology and physics	116
20–21 November 1979	EVDG 3rd int. conf. – resources for electric vehicles and their infrastructure	118
21 November 1979	Wind energy	117
22 February 1980	Measurement and instrumentation needs of the UK in the early 1980s	154
26–29 February 1980	Submarine telecommunications systems	155
5–7 March 1980	10th int. symp. on industrial robots, 5th conf. on industrial robot technology and 4th NC robot automation exhibition	193
24–27 March 1980	Electro-optics/Laser international '80	195
24–27 March 1980	2nd int. conf. on magnetic fluids	245
24–28 March 1980	Eurocon '80: From electronics to microelectronics. 4th European conf. on electrotechnics	247
25–27 March 1980	Vacuum devices	156
14–17 April 1980	2nd int. conf. on low-energy ion beams	157
17–18 April 1980	British Wind Energy Authority 2nd ann. workshop	196
22 April 1980	Electronic sensors and their applications	158
15 May 1980	Industrial applications of lasers	197
2–4 June 1980	5th int. symp. on jet cutting technology	246
19 June 1980	Radioactive waste management in perspective	244
